

Dobson-Grey Employee Charter 2022

At Dobson-Grey, we are committed to creating a work experience everyone values. How you feel while working here is central to your experience and happiness as an employee. This People Charter details how we believe you have the right to feel in our workplace. This Charter has been formulated with our Team in April 2022 and we are happy to revisit annually with any suggestions that you may have.

Creating these conditions is a shared obligation amongst us all, and one we undertake each day. Together, we can create a positive, energising culture and experience which we can all thrive!

Signed
